Good morning Sister Sawai,

April, 1<sup>st</sup>, 2020

My name is Michael But my friends Call me either Mike or Mikha'eel. I was Reading through your FEBRUARY 2020 issue XII And honestly I was Very Impressed In what I had Read. A Brother had Given me the issue In hopes that I might had liked it, he was wrong though, because I "LOVED IT". If it is In Any way possible Could you Sign me up And send me such issues so that I may be Enlighten more than what I am so far. Sister I am Going home this year And I had wanted to start my own Group much of An organization. I have taken the time to Study Various Groups Even the ones over sea's. Sister Since 1619 we have been De-Graced, played with like toys, Beaten As if we were not human. Since 1555 our Ancestors were taken from their homes whether it Be An Island or A chunk of mother Land Africa. I look up to And Admire such I dols As Che Guevarra, Assata Shakur, Angela Brown, The Great BLA And Brother malcom Shabazz. I believe In we can make A change only if we make A stans. I am 28 years old And my Eye of understanding is wide open And it hurts me to see Brother's And Sister's De-Grace themselves these Days. I will not lie I have been there when I was not

I tune with myself nor understand the ~~power~~ power that I could bring to gather our people so that we may take back what is ours and what is only right for us to have. The man has tried to prove over and over again that we're nothing. But the man failed because even though he changed our bodies, he knew he could not chain our minds nor spirits.

Sister I know people in high and low, between places, I'm from Philadelphia. I would love to join the movement to bring peace and harmony to our people. I am currently in Sci-fayette State prison in Pennsylvania and I have strong brothers young and older following in my footsteps because I'm not only a leader, I am a lion of my pack and lion is who I am.

It is my bloodline as your bloodline is my brother's and sister's who died for a cause during these past few years. Sister if I cannot talk to you directly that is okay even though that would be lovely to be able to. I hope to hear from you soon sister.

I also write poems here is a sample have a great day and also please send me anything pertaining this COVID-19 because the state of PA is treating us very poorly.

In these state prisons, (unsanitary conditions, not giving us fresh meals nor food, etc)

Peace Sister Sawari 17 years, MILK '07 "Small story": It was this and they say 1776 was the start, they say that my mother's mother was too dark, they say that the man is at the top of the chart as a African man lives below in a park. Let me tell you this, in

was the year 1619 they started the spark, and my grandmother was beautiful because she was dark, CA check again and you will see that light comes from dark so obviously we made the chart. Just a small story for you
